

Putting you in the picture

Catalogue
2011

Welcome

Welcome to the new 2011 Kenro Picture Products Catalogue.

Inside this new catalogue you will find all of our popular established photo & digital products.

Kenro are a leading distributor of photographic accessories and in addition to the products shown in this catalogue we have an expanding range that includes Kenro Photo Albums and Frames, Goldbuch Premium Albums, Tokina Lenses, Nissin Flash, Benro Tripods, Reflecta, and Marumi Optical Products.

For information on any of the above products, please visit our website or contact our sales office to request a catalogue. Account customers can also order online 24/7 from our trade website. If you would like more details on how to activate your internet account, please contact our sales office.

Kenro have been supplying the photographic industry for over 38 years. We are continuously developing our range and have worked hard to develop a reputation for efficient deliveries, excellent stock holding and friendly customer service.

I hope you enjoy this new catalogue, and thank you for your continued support.

Paul Kench
Managing Director

Trade customers buy online

Trade customers can buy from us online 24/7. Please contact our sales office for further information.

Website

Our Website shows our full line-up of photo equipment together with our extensive albums and frames range. The website is constantly updated when new products arrive on stream. Please visit us on **www.kenro.co.uk**

Stockists

Our products are stocked by leading photo stores throughout the UK and Ireland. For a full list of Kenro Stockists please visit our Website: **www.kenro.co.uk**

In the event of any supply difficulties please contact our sales office.

Albums and frames

Kenro distribute a comprehensive range of photo frames, photo albums, and strut mounts for the hobbyist and professional user.

Please contact our sales office for this separate catalogue or visit our Website.

Kenro Photo and Digital Equipment

Kenro are the UK distributors for Marumi, Tokina, Nissin, Benro and Reflecta. For information on these products either visit our Website or request a catalogue.

Trade showroom

We have a showroom at our Swindon Head Office. This is operated on an appointment only basis and is strictly for trade customers only.

Order shipments

Orders received before 1pm will be dispatched the same day (subject to stock availability). Deliveries are generally made within 2 working days. Please use product codes when ordering.

Terms

All orders are accepted subject to our terms of trading as detailed in our current price list.

Opening hours

Our sales office is open 9am – 5pm Monday to Friday. We are closed on public holidays.

Kenair

Kenair Master Kit 360ml

The Kenair Clean Air Duster consists of a 360ml Kenair cartridge and a re-usable actuator valve. The actuator is designed to emit a powerful controllable jet and is used to blow dust, fluff, grit and other unwanted loose particles from photo, electronic and other precision equipment. When the cartridge is finished the actuator can be used with a replacement cartridge. Do not use for cleaning digital camera sensors.

KENR01: Master Kit with 360ml Kenair Aerosol & Actuator Valve

KENR02: Kenair Aerosol 360ml

Kenair Air Duster & Dust Vac Kit

The Kenair Dust Vac Kit consists of a 360ml Kenair cartridge and a re-usable actuator which has the same function as the Kenair Clean Air Duster Kit. In addition to this the Kit is supplied with the Kenair Dust Vac attachment. This attachment is fitted in seconds and converts the kit to vacuum mode. The vacuum is suitable for picking up small particles and with its soft end, is ideal for cleaning in delicate areas.

KENR012: Kenair Air Duster & Dust Vac Kit

KENR04: Spare Actuator Valve

TD122: Spare Dust Vac Attachment

Kenair Blue Actuator Valve

Spare standard actuator for Kenair cartridges.

KENR04

Kenair Industrial Actuator Valve

Heavy duty chrome plated actuator for Kenair cartridges.

TD102

Kenair Anti-Reflect Full Matt 400ml

Anti-Reflect spray reduces reflection and glare in product photography. Ideal for use when photographing silver, glass and other similar products with highly reflective surfaces. Safe for use on most surfaces (if in doubt we recommend you test on a small part of the surface prior to use). Easy to wipe off after use with a soft, dry cloth.

KENR07

Studio Lighting

5 in 1 Reflector Kits

The 5 in 1 reflector panel kits feature a translucent panel over which a reversible gold, silver, white or black reflector can be attached. They fold down into handy zip bags when not in use. Sizes vary from a small 12" diameter model through to a 40x66" model for large studio or movie use.

FECRK12: Circular 12"
FRCRK22: Circular 22"
FECRK32: Circular 32"
FECRK42: Circular 42"

FERRK2844: Rectangular 28x44"
FERRK3648: Rectangular 36x48"
FERRK4066: Rectangular 40x66"

Backdrop Holders

Reflector holders with an adjustable clamp to fit onto a lighting stand and a holding clip for the reflector on the end of a telescopic arm. This enables the photographer to easily position and hold the reflector in a precise position.

FERBH2258 with a 22-58" Telescopic Arm
FERBH2566 with a 25-66" Telescopic Arm

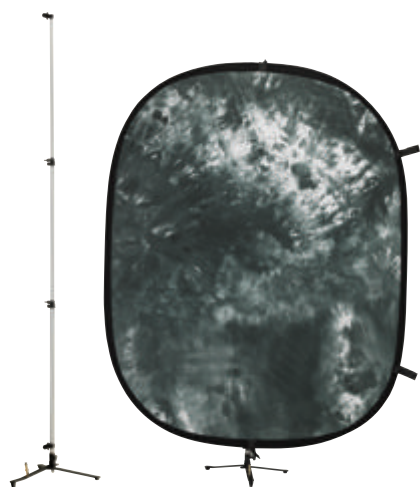

Backdrop Panels

Washable cotton background cloths on foldable sprung frames. When open they are held on a frame which expands out to 62x76", when not in use they fold down to a flat pack just 26" in diameter. Ideal for a small studio where space is at a premium or for location photography. Can be propped or hung up. Support stand also available. Available in five colours.

*See Cotton Backgrounds on Page 5 for Backdrop Panel Colour Chart

FEBD015 Grey Marl
FEBD016 Red Marl
FELRB0378 Support Stand

Kenro Easy Grip Reflectors

Featuring big easy to hold grips. Dimensions are 24x36". Sprung loaded frames enable them to be folded into a compact bag (included) when not in use.

FERFEG2436SL Reversible Sunlight
FERFEG2436SW Reversible Silver/White
FERFEG2436T Shoot through Translucent

Background Support 2.52m

The model 808 is a 3 section background system. It extends in height from 0.77-2.4 metres and from 1.7-2.52 metres wide.

FEB808

Background Support 3.15m

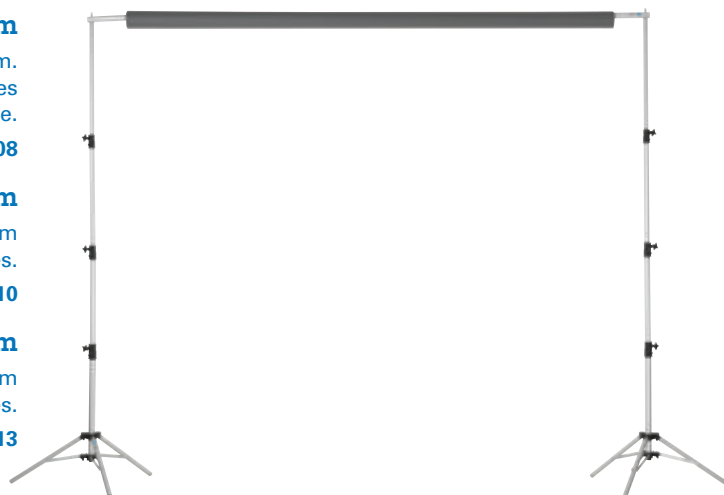

4 section system. Extends in height from 1.0-2.6 metres and in width from 2.1-3.15 metres.

FEB8510

Background Support 4.2m

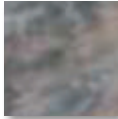

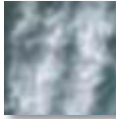

4 section system. Extends in height from 1.28-3.94 metres and in width from 2.1-4.2 metres.

FEB1313

Cotton Backgrounds

These washable cotton backgrounds are now available in two sizes with an extended range of colours. The sizes are 2.4 x 2.7 metres with an additional size of 2.9 x 5 metres in certain colours. All backgrounds have a sewn hem on the short side for the background support bar and fit our own background system.

Kenro White Flash Umbrella

This is a reflector umbrella giving a very soft effect.
Available in two sizes 32" and 48".

FEUR32WB 32"
FEUR48WB 48"

Kenro Silver Flash Umbrella

The silver umbrella is a reflector model which gives a higher contrast factor than the white or translucent umbrellas.

FEUR32S 32"
FEUR48S 48"

Kenro Translucent Flash Umbrella

This shoot through umbrella provides an easy and economical method of producing a soft lighting effect with flash.

FEUR32T 32"
FEUR48T 48"

Studio Lighting

Light Stand

This is a 4 section stand with air cushioning and standard spigot. Ideal for Medium power Professional Studio Flash and Continuous Lighting Heads.

Max height **240cm** Min height **78cm**
Collapsed length **70cm** Weight **1.1kgs**

FEL2440A

Wall Lighting Boom

Ideal for a small studio where space is at a premium. The lights can be folded back against a wall when not in use. There are 2 models available.

FEWB1250 Boom which extends from **75 – 125cm**
FEWB1690 Boom which extends from **98 – 169cm**

Photo Box in a Portfolio Case

Photo Box folds down into a portfolio size case. Rigid construction. Dimensions 45x45x45cm with built in blue background cloth. Opaque white sides for soft shadowless lighting. Perfect for small product photography. Set up in seconds.

FEPFB45

Photo Box

Perfect for use when photographing small items such as glass or silver. Consists of a white translucent material fitted over a strong aluminium frame measuring approx 60x60x60cm. Open one side. There are clips so that you can fix a sheet of card or cloth inside for the background colour of your choice. White cloth cover gives perfect diffusion for soft shadowless photography. Easily dismantled into a compact size case which is included.

FEPB0606

Photo Cube in Zip Round Case

White translucent Photo Cube. Dimensions 60x60x60cm with open front for the camera. Ideal for small product photography. Sprung loaded frame pops up ready for use. Folds into a 12" flat round case which can be fitted into the corner of a large gadget bag. White translucent construction gives shadowless illumination. Blue background supplied.

FELFPB2

Small Still Life Table

Designed for shadowless photography of small and medium sized items and products. It has a rigid white plastic translucent panel formed over a strong rigid aluminium frame. Panel size 60x130cm. Enables photography of small to medium size products either in a Studio or on location. Being translucent the table can be backlit or underlit. Light heads can be clamped to the frame. Can be disassembled and due its suppleness the main panel rolled up. Carry bag included.

FEST0613

Large Still Life Table

Designed for medium to large sized items and products. It has a rigid, white, translucent panel which is formed over a strong aluminium table frame which has telescopic legs for height adjustment. Panel size 96x200cm. Main panel is very supple and rolls down to a compact size. The table can be under or backlit and light heads can also be clamped to the frame.

FEST1020A

Kenro Flash Meter

Inexpensive simple Flash Meter for reading both incident and reflected light.
Features: ISO range 12 -1000 • Measuring range f/2 –f/32 • LED displays whole aperture value scale with 1/3rd and 2/3rd increments • LED 'blink' to indicate overexposure • Auto on/off battery saver switches off after 2 minutes • Power source PP3 9V battery • Supplied with a case • Dimensions 136x70x30mm.

TF004

Kenro IR Studio Flash Transmitter

This is an IR transmitter for remote triggering of flash heads.

Features: Operates up to approximately 45 Metres (straight line basis) • Operates from the camera hotshoe or via a camera synch cable • Operates off 2 AA batteries • Up to 800 transmissions per set • Power saving device switches off after 3 minutes.

TF005

Single Channel Wireless Flash Trigger System

Battery powered, wireless radio signal flash trigger system. Consisting of a hot shoe mounted or camera synch operated sender module plus a battery powered receiver.

The receiver connects to the flash head and triggers it via radio signal. Compatible with either small or large jack plug connections. Additional receivers are available to trigger additional heads. Effective operating range approximately 15-30 metres.

FERF25D Extra Receiver FERG25DR

4 Channel Wireless Flash Trigger

4 Channel battery powered, wireless radio signal flash trigger system. Consisting of a hot shoe mounted or camera synch operated sender module, which can synchronise one or several receivers of the same channel at the same time. One receiver unit included. Additional receivers available each providing 4 different channels allowing independent triggering combinations of studio flash systems. Effective operating range approx 15-30 metres.

FERF604D FERG604DR Extra Receiver

8 Channel Wireless Flash Trigger

An 8 Channel version of the above trigger system. One receiver unit is included.

Additional receivers are available, each providing 8 different channels to allow for independent triggering combinations of studio flash systems.

FERF608D FERG608DR Extra Receiver

Single Channel Wireless Flash Trigger (AC)

Single channel, wireless radio signal flash trigger system. Consists of a hot shoe fitting or camera synch operated sender module plus receiver unit. The receiver unit is AC powered and links to the Studio Flash Head, triggering via the radio signal emitted from the sender module. Receiver units for additional flash heads available. Effective range approx. 15-30 metres.

FERF125 Additional Receiver FERG125R

4 Channel Wireless Flash Trigger (AC)

4 Channel mains powered, wireless radio signal flash trigger system. Consisting of a hot shoe mounted or camera synch operated sender module which can synchronise one or several receivers of the same channel at the same time. One receiver unit included. Additional receivers are available each providing 4 different channels to allow for independent triggering combinations of studio flash systems. Effective operating range approx. 15-30 metres.

FERF604 Additional Receiver FERG604

8 Channel Wireless Flash Trigger (AC)

8 Channel version of the above trigger system. One receiver unit included. Additional receivers are available each providing 8 different channels to allow for independent triggering combinations of studio flash systems.

FERF608 Additional Receiver FERG608R

Kenro Accessories

Protective Screens for Digital Cameras

3 clear film overlays which can be cut to size and attached to a LCD screen to help protect from scratches and reduce glare. Each film measures 100x80mm. Kit includes applicator and cleaning wipes. **TD110**

Magic Cleaning Cloth

Ultrafine microfiber cloth for optimum softness. For cleaning lenses and optical equipment without smearing. **MR107**

Silver Digital Camera Neck Strap

Silver with a plastic coating. Ideal for Digital cameras, MP3 players or mobile phones. **MR116**

Wool Digital Camera Neck Strap

Soft neck strap with a quick release & stopper system. Ideal for Digital cameras, MP3 players and mobile phones. **MR113**

Digital Compact Camera Slave Flash

Simple compact flash. Can be operated from a camera hot shoe or independently. Specification: Guide No.12 M (ISO100) • Powered by 2 x AA batteries (Not included) • Recycle time approx. 6 secs • 5600K • Dimensions: 63x26x113mm • Weight excluding batteries 80g. • Flash bracket included.

TF001

Digital Compact Camera Slave Tower Flash

Tower design is designed to reduce red eye effect. Flash can be operated from a camera hot shoe or independently, where it is triggered by the built in sensor. Specification: Guide No. 12M (ISO100) • Powered by 2 x AA batteries (Not included) • Recycle time approx. 6 secs • 5600K • Dimensions: 20x26x170mm • Weight 80g excluding batteries.

TF002

Mini Vacuum Cleaner

Small vacuum cleaner ideal for vacuuming out cameras and most types of equipment. Operates off 4 x AA batteries (Not included). With straight vacuum tube and brush attachments.

TD121

Hurricane Blower

Produces a powerful jet of air for blowing dust and fluff from cameras and lenses. Uses a double valve system.

MR115

Blower Brush

Traditional blower brush. For cleaning cameras and lenses etc.

MR102

Digital Camera / Lens Cleaning Kit

Cleaning kit comprising a small blower brush, lens cleaning solution, lens tissues and cotton swabs.

MR103

Magnifier Loupe

A small handy size 10x magnifier with a translucent base.

FESL30

Clear Fronted Bags

Clear fronted bags with white Kraft paper backs.

- NB020** Pack of 500 bags 5½ x 6"
- NB021** Pack of 500 bags 5½ x 7½"
- NB022** Pack of 500 bags 7½ x 10"
- NB023** Pack of 500 bags 8½ x 10½"
- NB024** Pack of 500 bags 10½ x 13"
- NB025** Pack of 500 bags 12¼ x 17"

Film Picker

For 35mm film leader retrieval. Extracts the film end when wound back into a film cassette. Use in daylight, no dark room required.

MR104

CD Storage Books

Storage books with soft lined CD pockets and Polypropylene covers for 48 CD's. Each book is supplied in a semi rigid Polypropylene slip case.

CD103 for 48 CD's

CD Storage Box

Desktop storage filing box with an attractive smoke grey finish. 80 CD's are protected in soft lined individual hanging files. Each file has an ID strip on the top edge.

CD101

CD Marker Pen

Writes directly onto CD discs and can also be used to write onto most other non absorbent surfaces such as plastic, metal or glass. Drying time of 5-10 seconds.

TD115 Pack of 2

Negative Bags

Manufactured from acid-free translucent glazed paper.
